To the PUBLIC, New-York, Oct. 16, 1766.
I T is now upwards of six Years that I have published a weekly News Paper, under the Title of the *New-York Gazette* or *Weekly Post-Boy*, which I have the Pleasure to think has been generally acceptable, and publicly useful: But having now Occasion to alter the Title of my Paper, I hope for the same favourable Reception of the *NEW-YORK JOURNAL* or *GENERAL ADVERTISER*, that my Paper met with under the former Title; since it will be conducted with the same Spirit, and to the same Ends,—the Suppression of Evil, and the Promotion of public and private Happiness. The Reasons of altering my Title are these, 1st, for the Sake of Distinction, as I am inform'd Mr. PARKER intends to publish a Paper under the former Title; and 2d, because, as he formerly publish'd a Paper under that Title, I would not avail myself of any Advantages from a Name originally assumed by him. The Number, for the Sake of more easily settling with my Customers, will run regularly on from my last Week's Paper.
JOHN HOLT.

REEVE and PEMBERTON,
Masters of the Grammar School in Elizabeth-Town,
TAKE this Method to acquaint the Public, that they continue to teach the GREEK and LATIN Languages. A commodious House is provided in the Centre of the Town, for the Accommodation of a large School.—Gentlemen who incline to send their Sons, may depend upon their united diligent Care in qualifying them, for Admission into any of our American Colleges.—As the Art of reading and pronouncing the English Tongue, with Propriety, is too much neglected in the first Rudiments of Education; they will devote part of their Attention to this essential Object.—To promote this useful branch of Knowledge, it is proposed that generally once in a Month, the Lads shall publicly recite some select Pieces from the best English Authors.—This it is imagined will excite a laudable Emulation to excel in the Art of Delivery. Gentlemen of Education in the Town will frequently visit the School; from whom it's Character may be known.—The Terms of Admission are Five Pounds Light Money per Annum, and Twenty Shillings Entrance. Boarding may be had in reputable Families, at Twenty Pounds New-York Currency, per Annum.

To be sold the 20th of April next, at Public Sale on the Premises, or at private Sale any Time before;
THE House and Lot where the Printing-Office is now kept at the Exchange, being the same where the King's Arms Tavern was kept for many Years before. Inquire of the Subscriber, at his House in the Bowry-Lane.
NICHOLAS BAYARD.

RED and white PORT, very excellent
in Pipes, Hogheads, and Quarter-Casks, to be sold by CHARLES NICOLL, at the White-Hall.
26.

I Do hereby solemnly declare, that I did not sell, nor send from our store, any goods in carts or other ways, to any of my friends or creditors, all the time or any part of the time, from Saturday the 10th, until Wednesday the 13th of November; the day Mr. Shaw says, we stop payment: nor do I find any goods entered in the books, sent from the store at that time worth notice, excepting a pipe of wine £. 6s currency, and £. 77 sterling in dry goods, sold at 12s and a half advance, by Mr. Shaw himself, to Mr. Walter Buchanan, the 11th of November: and 13 dozen bottles, and 4 pipes Madeira wine, sent by Mr. Shaw also, to Mr. Anthony Vandam, November 22d. on account of Messrs. Betencourt and Donaldson, and to the above gentlemen I refer to any persons who will give themselves the trouble to inquire into the truth of this matter. I also declare to the best of my knowledge, that on the 30th day of May, 1764, I went from New-York to Sandyhook, and did not return till the 5th or 6th of July, and stay'd in town but a few days, and was call'd to the Hook again, went to sea, and did not return to New-York till the 29th of July; which can be proved by many gentlemen in town, and the Pilots that were along with me: This was the time Mr. Shaw sold the furs sent to our care by Messrs. Duncan and Phyn, to be ship'd to London, on their account. I farther declare I never consulted with, nor ever was consulted by Mr. Shaw, about the sale, or selling of any such furs; nor did I know of any furs being sent to our care to be ship'd to London, on those gentlemen's accounts, till the latter end of August, or the beginning of September, that Mr. James Phyn came to town from Schenectady; and inform'd me of it.
JOHN ALEXANDER.

Sworn before me New-York, }

GEO. BREWERTON, Justice of the Peace.
We the subscribers being constantly in company, and most of us eat, drank and sleep in the same room, with Captain John Alexander, during his late confinement: We declare, we never heard him say that he would instantly sink into Hell with pleasure, was he sure David Shaw, would follow him there, neither do we believe, Mr. Shaw heard him say any such words as they were never seen nor heard speak together all the time of Mr. Alexander's confinement. Witness our hands, New-York, April the 4th. 1767.

New-York, April 8, 1767.
Mr. John Alexander, Sir, We have yours of this date, in answer to which, say thus, that we bought them goods from David Shaw, and of him only, nor had we any goods in that month but what we bought of him.

We are your most humble servants,
WALTER and THOMAS BUCHANAN.
In David Shaw's letter to all the creditors, of John Alexander and company, March, 1767. I shall only take notice, of the 4th paragraph, page 15, where he says,—"as can be proved by the company's books, and sundry of the neighbours" I only answer, that I sincerely wish all the losses the company has sustain'd, from the first to last, could be proved by the company's books,—and for what can be proved by the neighbours, while they abide by truth, as I believe there is hardly any of them that will depart from it, either from partiality or prejudice; I am conscious to myself, they can say nothing that will hurt either my character or credit; so I shall take no farther notice of him, or his scandalous and infamous letter, till I can bring him face to face before some gentlemen of character, to whom I shall leave the determination of all disputes between him and me; which is all I ever wanted, and long wish'd for, and he as long refused and evaded to the great loss of our creditors, and hinderance to the settlement of our unfortunate affairs, for every one concerned but himself: I am not yet clear of my fears, that he will endeavour all he can to find out some plan to embarrass us still farther, on purpose to avoid the difficulties he knows he must encounter. But that our assignees will, with the rest of our creditors, take such steps as will prevent any more attempts of that kind, is the sincere wish of their most obedient, humble servant,
66-69
JOHN ALEXANDER.

To be SOLD at PUBLIC VENDUE, on the first Day of June 1767, at the Merchant's Coffee-House;
A Tract of land, contained in a parcel of land, usually called Henderson's patent, situate westerly from the Fall-Kill, and south of the German-Flatts, by estimation seven miles from the Mohawk-river, or nine miles southeasterly from fort Hackerman: The thousand acres of this patent now to be sold, is distinguished by No. 5. having a mark'd tree L, on the northern, and an other mark'd RC, on the southern line; distant from a settlement of ten families on the said patent only forty-fix chains, is allowed in general to be equal to the justly celebrated German-Flatts in soil, and in some places superior, in short it only wants a river equal to the Mohawk-river running through it, to make the whole more valuable.—New-York, April 7, 1767.

Sunday Morning last, the Ship Hope, Capt. BENJAMIN DAVIS, arrived here from London, but left from the Downs, in 32 Days, by whom we have the following Advices, viz.

V E N I C E, December 30.
***** E have had in our City, for this Fortnight past, his Serene Highness the Hereditary Prince of Brunswick; our Republic were very desirous of giving that excellent Prince the most splendid Reception, but his Highness declined it, and has remained in private as Count of Blackenbourg. His Excellency Sir James Wright, his Britannic Majesty's Minister here, went with his Family to a Nobleman's Villa about twenty Miles off on the Brenta, which he had prepared for that Purpose to meet his Highness, and conduct him here. During his Stay, he was frequently entertained at the abovementioned Minister's House, who went Yesterday to accompany his Highness Part of the Way to Verona, from whence, it is said, he goes immediately to Paris.

Constantinople, Jan. 3. The Prince of Walachia, died lately of the Plague, and the Grand Signior immediately named his Son to succeed him; and appointed the Son of the late Vizir, who was beheaded at Meteline, to carry the Regalia to Walachia, to install him in his Principality. These two Acts of Generosity and Charity of the Grand Signior are much admired here.

Naples, Jan. 6. There has been at the Mint a Coinage of several thousand Crown Pieces, which are to be distributed to the Populace, on the King's Birth-day, as his Majesty goes to the Cathedral. The general Pardon for Criminals, Deserters, and Fugitives, is not to take Place till the Wedding, which is to be in May.

Stockholm, Jan. 9. The Government has been taking Measures for encouraging the printing of Cottons in this Kingdom; and for this Purpose, besides the Work-places which are already established, several others are to be erected; those Persons who choose to settle in this City, will have the Liberty of importing from abroad 2000 Pieces of white Cotton; those at Gottenburgh 2500, and those at Malmoe, 1000.

Paris, Jan. 16. The Dauphiness, having, within these few Days, found herself much indisposed, has been advised by the King to consult M. Tronchin; to which her Royal Highness has consented, on Condition that he alone shall have the Treatment of her Illness.

Paris, Jan. 26. M. Tronchin lets nothing transpire of his Sentiments concerning the Dauphiness's Illness, and has all his Prescriptions made up in his own Presence.

Florence, Jan. 24. The Great Dukes and the young Princess continue well.

Genoa, Jan. 24. Yesterday morning, three successive shocks of the earth were felt in this city and the neighbourhood; but they were more sensible of them near the river Ponent, and in some part of Tuscany.

Perma, Jan. 24. Two slight shocks of the earth were felt here on the 21st; the one at half an hour after eight in the morning, the other at three quarters after nine; each of which lasted about two seconds, but did no Damage, except on two beams in the Great Theatre in this City, and on the convent of the Cordeliers.

Geneva, Feb. 3. The Frontiers of this Republic continue to be blockaded, on the side of France, with such strictness, that the troops forming the line of observation, will suffer no Stranger to pass and repass; not even the Switzers, though supplied with passports from their respective towns. This calamity is owing to the sinister notions which the Court of France has imbibed against the *Representing Citizens*, whose steps, however dictated by the purest patriotism, are ever misrepresented by *opposite party*, which has now gained much credit.

EDINBURGH, February 11.
Sunday se'night there were taken from under the Snow on Irthington Muir, near Brampton in Cumberland, several Sheep which had been 15 Days in that Situation, and are yet alive.

QUEBEC, March 9.
Thursday last, Mr. Stagman, Keeper of the Goal in this City, brought with him, from Montreal, the Chief-Justice's Warrant for apprehending Mr. Simon Frazer, Merchant in this City, being suspected of attempting to poison George M'Govock (as mentioned in No. 108 of this Gazette) late a Prisoner in our Goal; he being the Chief Evidence in the late Assault on Mr. Thomas Walker; and said Mr. Frazer was the same Day admitted to Bail, himself in £500. and two Sureties in £250. each.

CHARLES-TOWN, South-Carolina March 27.
On Sunday last, his Excellency John Wentworth, Esq; Governor of New-Hampshire, arrived here from London, in the brigantine Friendship, Henry White, master, in the same vessel came likewise Captain Loring, of the fifteenth regiment; also Mr. and Mrs. Apthorp, of Boston. We hear Governor Wentworth is appointed surveyor general of all his Majesty's woods in North-America, with a handsome salary. We are likewise told his Excellency intends to proceed to his government by land.
On Wednesday last the Right Honourable Lord Hope, accompanied by several gentlemen, set out on a tour to Georgetown and the northern parts of this province. We hear his Lordship proposes to sail for Great Britain about the middle of next month, in the ship Little Carpenter, Richard Maitland, master.

This day one hundred and twenty barrels of rice were sold at 52 s. 6 d. the 100 lb.
The sloop Catharine, of Jamaica, John Pyner, master, was unfortunately lost in October last, on the Mortiers. The master and crew got into their boat, where they continued about seven weeks, and at last got providentially into Apalachie, in West-Florida. Capt. Pyner arrived here on Sunday last from St. Augustine.

BOSTON, April 6.
We hear that his Excellency Governor Moore, of New-York, has, by Letter to his Excellency our Governor, desired that Joseph Andrews, a Prisoner now in Charlestown Goal, and charged with Murder and Piracy on the High Seas, may be sent to New-York, for Trial; and it is said his Excellency with the advice of Council, has directed the Commissary General to procure a Passage for the said Andrews thither, under a Guard of two Men, with a proper Warrant for that Purpose, together with all his Effects which have been seized here, excepting the Money, which is to remain till further Order.

NEW-YORK, April 16.
Capt. Benjamin Davis of the ship Hope, left the Downs the 4th of March, in company with the Carolina, Capt. Friend; Success, Capt. Nuttle; Dispatch, Capt. Coldstream, and the Clarendon, Capt. Carr, for Philadelphia; Capt. Gardner, for Rhode-Island; four sail for Boston, and about 200 for the Straights and West-Indies. He left in the Downs 10 outward-bound East-India men, and heard that the Lord Clive, India-man, that failed before them was lost on the coast of France. By him we learn that 13,000 men are to be sent to us, and that they are to be quartered in the Provinces of N. York, Connecticut, and Boston.—That the American affairs were inspected into by the parliament, and it was artfully insinuated the issue might have proved highly advantageous to the colonies, had they not sent their last remonstrances, which were called *Libellous*.—That some of the Lords were greatly incensed against them, and Lord Shelburne, and Mr. Conway told the committee of merchants that waited on them, that they were sorry the Americans, particularly the people of New-York were so refractory; that if they had behaved as they should, the duties on sugar and molasses would have been eased, and their trade enlarged; but now the tables were turned against them, it being supposed the Americans want to treat with them, as equal powers, since in their last remonstrances to parliament, they pretend to comply with such laws, and taxes only, as they thought most advantageous to themselves.—That the friends of the N. Yorkers were in general against them; and to justify this change, it was given out, that they had behaved ungratefully to the committee, in not returning them thanks, for what they did, towards procuring the repeal of the stamp-Act, tho' it cost them 500l. to complete it, and nevertheless they seem to insist on their doing more for them.—That they had received the thanks of Quebec, and the little colony of Rhode-Island only, and the last remonstrances were voted to be burned unopened.—That on the 21st of February, Lord Chatham was sent for from Bath, on very particular business, and whilst at dinner, at Marlborough, the ceiling of the

room fell in, but no further damage ensued.—That his lordship proposes this session to break the East-India company's charter, if they do not pay all the expence incurred for them in the course of last war, which the company seem terrified at, as in order to conform to their charter, by which they are obliged to keep a certain number of armed ships in commission, they have now a greater number on actual service than they ever had.—That the parliament will not break up till the 14th of May, about which time his lordship intends to procure the full payment of the Manilla ransom; amounting to 350,000l.—That the Spaniards are fitting out very large fleet, for which they were making great preparations in all their ports; whence it was conjectured they intend to surprise Gibraltar and Mahon, to make up for their late losses.—That Admiral Broderick is going with a large fleet to Gibraltar, and orders are gone before him, to get proper booms fixed and every thing necessary for a defence.—That many large ships and transports are taken up in the river Thames, and those preparations gave some plausibility to the enemies of America, to inflame the minds of the people, by reporting those hostile measures are wholly designed against the Colonies.—That numbers of carpenters, and other tradesmen are gone to Spain; but the English ambassador has orders to demand them; and many artificers have engaged to go and settle in East and West Florida, the poor in general being much distressed by taxes, and the excessive dearth of provisions.

Extract of a Letter from a Gentleman in London, to his Friend in this City.

"Such a Cloud appears gathering over your Province, since the Arrival of your Assembly's Resolutions, that we fear your public Affairs may be in a State of Confusion, and altho' we cannot say with any Certainty, what Measures will be pursued, it seems generally agreed, that 8 or 9 Regiments, with some Draughts from the Artillery, are destined for your Province: We therefore thought it would be very imprudent to risk our Friends or our own Property, at such a critical Juncture; and for that Reason purpose shipping their Goods to Philadelphia, per the Phoebe, Capt. Davidson, who will depart in about a Week. We hope our Friends will approve this Measure, and the more so, as we have taken the extraordinary Charge on ourselves, to prevent their Disappointment.—We shall be exceedingly obliged to you, Sir, for your Sentiments on the State of your public Affairs; and your Opinion how far it is probable Commerce may receive any Interruption; together with any other Information, by the earliest Opportunity."

Further Extracts of Letters from London.

"Since the Arrival of the Halifax Packet, with the Resolutions of your Assembly, of the 15th of December, such a Cloud appears to be gathering over your Province, as cannot but exceedingly affect every Mind pacifically disposed, and alarm those connected by Commerce: This Circumstance inclines us to wait and see what turn this unhappy Affair will take, before we increase our Concerns in a Province, which, we fear will soon be in a State of Confusion, as it is the general Opinion that the British Legislature will immediately take Measures to oblige your's to execute the Act of Parliament objected to, whereby Property may probably become precarious: should it unfortunately prove the Case, we think our Friends might blame us for sending them Goods, at such a critical Juncture. We ardently wish a more favourable Prospect may present to our View, before the Departure of the Vessels bound to your Port; but lest that should not happen, we are anxious to communicate our Sentiments by the earliest Conveyance."

"Since our last, no favourable Circumstances have occur'd, relative to the Public Affairs of your Province: For altho' nothing can be depended on, with Certainty, in regard to the Measures which the Government may adopt, yet it seems generally agreed, that 8 or 9 Regiments, with two Detachments of Artillery are destined for Embarkation to your Port. We therefore find no Reason to alter the Sentiments we communicated by our last, and consequently have been under the disagreeable Necessity of permitting the Vessels to depart, without any Goods from us, thinking it not consistent with Prudence to risk, at such a critical Juncture, the Property, either of our Friends or ourselves, for any immediate Advantage that may accrue to the one or the other."

Captain Lawrence, arrived here last Tuesday, from London, he spoke with Captain Clarke, from Bristol, on Sunday last, at 25 Leagues Distance from the Hook.

The Packet, Capt. East, from Philadelphia to Newry, was spoke with, on the 18th of January, in Lat 34, 13, N. Long. 53, 18, all well.

The Hope, Marshall, from Philadelphia to Barcelona, was spoke with, on the 28th of January, within the Straights, all well.

The Ship Britannia, Capt. Richards, from Lon-

don, for this Port, richly loaded, was lost on the South-Side of Long-Island, near Hempstead, in the Night of the 7th Current in 27 Days from the Downs; three of the Seamen were drowned; Part of the Vessel, and Goods to the Value of about £2,000 are already saved.

Thursday last, Mr. Stagman, Keeper of the Goal in this City, brought with him, from Montreal, the Chief-Justice's Warrant for apprehending Mr. Simon Frazer, Merchant in this City, being suspected of attempting to poison George M'Govock (as mentioned in No. 108 of this Gazette) late a Prisoner in our Goal; he being the Chief Evidence in the late Assault on Mr. Thomas Walker; and said Mr. Frazer was the same Day admitted to Bail, himself in £500. and two Sureties in £250. each.

CHARLES-TOWN, South-Carolina March 27.

On Sunday last, his Excellency John Wentworth, Esq; Governor of New-Hampshire, arrived here from London, in the brigantine Friendship, Henry White, master, in the same vessel came likewise Captain Loring, of the fifteenth regiment; also Mr. and Mrs. Apthorp, of Boston. We hear Governor Wentworth is appointed surveyor general of all his Majesty's woods in North-America, with a handsome salary. We are likewise told his Excellency intends to proceed to his government by land.

On Wednesday last the Right Honourable Lord Hope, accompanied by several gentlemen, set out on a tour to Georgetown and the northern parts of this province. We hear his Lordship proposes to sail for Great Britain about the middle of next month, in the ship Little Carpenter, Richard Maitland, master.

This day one hundred and twenty barrels of rice were sold at 5 s. 6 d. the 100 lb.

The sloop Catharine, of Jamaica, John Pyner, master, was unfortunately lost in October last, on the Mortiers. The master and crew got into their boat, where they continued about seven weeks, and at last got providentially into Apalachie, in West-Florida. Capt. Pyner arrived here on Sunday last from St. Augustine.

BOSTON, April 6.

We hear that his Excellency Governor Moore, of New-York, has, by Letter to his Excellency our Governor, desired that Joseph Andrews, a Prisoner now in Charlestown Goal, and charged with Murder and Piracy on the High Seas, may be sent to New-York, for Trial; and it is said his Excellency with the advice of Council, has directed the Commissary General to procure a Passage for the said Andrews thither, under a Guard of two Men, with a proper Warrant for that Purpose, together with all his Effects which have been seized here, excepting the Money, which is to remain till further Order.

NEW-YORK, April 16.

Capt. Benjamin Davis of the ship Hope, left the Downs the 4th of March, in company with the Carolina, Capt. Friend; Success, Capt. Nuttle; Dispatch, Capt. Coldstream, and the Clarendon, Capt. Carr, for Philadelphia; Capt. Gardner, for Rhode-Island; four sail for Boston, and about 200 for the Straights and West-Indies. He left in the Downs 10 outward-bound East-India men, and heard that the Lord Clive, India-man, that failed before them was lost on the coast of France. By him we learn that 13,000 men are to be sent to us, and that they are to be quartered in the Provinces of N.York, Connecticut, and Boston.—That the American affairs were inspected into by the parliament, and it was artfully insinuated the issue might have proved highly advantageous to the colonies, had they not sent their last remonstrances, which were called *Libellous*—That some of the Lords were greatly incensed against them, and Lord Shelburne, and Mr. Conway told the committee of merchants that waited on them, that they were sorry the Americans, particularly the people of New-York were so refractory; that if they had behaved as they should, the duties on sugar and molasses would have been eased, and their trade enlarged; but now the tables were turned against them, it being supposed the Americans want to treat with them, as equal powers, since in their last remonstrances to parliament, they pretend to comply with such laws, and taxes only, as they thought most advantageous to themselves.—That the friends of the N. Yorkers were in general against them; and to justify this change, it was given out, that they had behaved ungratefully to the committee, in not returning them thanks, for what they did, towards procuring the repeal of the stamp-Act, tho' it cost them 500l. to complete it, and nevertheless they seem to insist on their doing more for them.—That they had received the thanks of Quebec, and the little colony of Rhode-Island only, and the last remonstrances were voted to be *burned unopened*.—That on the 21st of February, Lord Chatham was sent for from Bath, on very particular business, and whilst at dinner, at Marlborough, the cieling of the

room fell in, but no further damage ensued.—That his lordship proposes this session to break the East-India company's charter, if they do not pay all the expence incurred for them in the course of last war, which the company seem terrified at, as in order to conform to their charter, by which they are obliged to keep a certain number of armed ships in commission, they have now a greater number on actual service than they ever had.—That the parliament will not break up till the 14th of May, about which time his lordship intends to procure the full payment of the Manilla ransom, amounting to 350,000l.—That the Spaniards are fitting out a very large fleet, for which they were making great preparations in all their ports; whence it was conjectured they intend to surprise Gibraltar and Mahon, to make up for their late losses.—That Admiral Broderick is going with a large fleet to Gibraltar, and orders are gone before him, to get proper booms fixed and every thing necessary for a defence.—That many large ships and transports are taken up in the river Thames, and those preparations gave some plausibility to the enemies of America, to inflame the minds of the people, by reporting those hostile measures are wholly designed against the Colonies.—That numbers of carpenters, and other tradesmen are gone to Spain, but the English ambassador has orders to demand them; and many artificers have engaged to go and settle in East and West Florida, the poor in general being much distressed by taxes, and the excessive dearth of provisions.

Extract of a Letter from a Gentleman in London, to his Friend in this City.

"Such a Cloud appears gathering over your Province, since the Arrival of your Assembly's Resolutions, that we fear your public Affairs may be in a State of Confusion, and altho' we cannot say with any Certainty, what Measures will be pursued, it seems generally agreed, that 8 or 9 Regiments, with some Draughts from the Artillery, are destined for your Province: We therefore thought it would be very imprudent to risk our Friends or our own Property, at such a critical Juncture; and for that Reason purpose shipping their Goods to Philadelphia, per the Phoebe, Capt. Davidson, who will depart in about a Week. We hope our Friends will approve this Measure, and the more so, as we have taken the extraordinary Charge on ourselves, to prevent their Disappointment.—We shall be exceedingly obliged to you, Sir, for your Sentiments on the State of your public Affairs; and your Opinion how far it is probable Commerce may receive any Interruption; together with any other Information, by the earliest Opportunity."

Further Extracts of Letters from London.

"Since the Arrival of the Halifax Packet, with the Resolutions of your Assembly, of the 15th of December, such a Cloud appears to be gathering over your Province, as cannot but exceedingly affect every Mind pacifically disposed, and alarm those connected by Commerce: This Circumstance inclines us to wait and see what turn this unhappy Affair will take, before we increase our Concerns in a Province, which, we fear will soon be in a State of Confusion, as it is the general Opinion that the British Legislature will immediately take Measures to oblige your's to execute the Act of Parliament objected to, whereby Property may probably become precarious: should it unfortunately prove the Case, we think our Friends might blame us for sending them Goods, at such a critical Juncture. We ardently wish a more favourable Prospect may present to our View, before the Departure of the Vessels bound to your Port; but lest that should not happen, we are anxious to communicate our Sentiments by the earliest Conveyance."

"Since our last, no favourable Circumstances have occurred, relative to the Public Affairs of your Province: For altho' nothing can be depended on, with Certainty, in regard to the Measures which the Government may adopt, yet it seems generally agreed, that 8 or 9 Regiments, with two Detachments of Artillery are destined for Embarkation to your Port. We therefore find no Reason to alter the Sentiments we communicated by our last, and consequently have been under the disagreeable Necessity of permitting the Vessels to depart, without any Goods from us, thinking it not consistent with Prudence to risk, at such a critical Juncture, the Property, either of our Friends or ourselves, for any immediate Advantage that may accrue to the one or the other."

Captain Lawrence, arrived here last Tuesday, from London, he spoke with Captain Clarke, from Bristol, on Sunday last, at 25 Leagues Distance from the Hook.

The Packet, Capt. East, from Philadelphia to Newry, was spoke with, on the 18th of January, in Lat 34, 13, N. Long. 53, 18, all well.

The Hope, Marshall, from Philadelphia to Barcelona, was spoke with, on the 28th of January, within the Straights, all well.

The Ship Britannia, Capt. Richards, from Lon-

don, for this Port, richly loaded, was lost on the South-Side of Long-Island, near Hempstead, in the Night of the 7th Current in 27 Days from the Downs; three of the Seamen were drowned; Part of the Vessel, and Goods to the Value of about £.2,000 are already saved.

WHEREAS a Number of Dutch Reformed Ministers and Elders, have taken into their serious Consideration, the many dangerous Inconveniences and Abuses which have crept into their Churches, whereby the Progress of true Christianity, in Knowledge and Practice is obstructed, and with which they have grievously been afflicted these many Years. And being desirous to rectify them and restore their Church to its ancient Prosperity, Lustre and Dignity: After solemn Humiliations, Fastings, and Prayers, before the Throne of Grace, with all those among their People, who thought proper to join them; they have agreed at last, and judged it the only remaining Remedy, to erect a Seminary or College, in which the American Youth might be regularly educated after the Manner, and Custom of the United Provinces, and other Protestant Reformed European Churches, where from their Ancestors proceeded; and to dedicate the most pious and capable to the weighty Gospel Function, whereby the Goodness, and Happiness of the numerous Body of the Dutch People, might be completed, in respect of their Loyalty, Industry and Christian Religion. It also pleased the King of Kings, in whose Hands the Hearts of Kings are, and who promised that their Kings should be nursing Fathers, and their Queens nursing Mothers, to the Church, to Favour the humble Address of the Ministers and Elders, to his Excellency William Franklin, Esq; Governor and Commander in Chief, in and over his Majesty's Province of New-Jersey, &c. whereby they have obtained by his Majesty's Letters Patent, and Charter or Royal Grant, bearing Date the 10th Day of November, 1766, to erect a College called Queen's College in the Province of New-Jersey; and a Corporation, or Body Politic, together with all the Privileges, Powers, Authorities, and Rights belonging thereunto, as is customary and lawful in any Colleges, in his Majesty's Realm of Great-Britain. The sacred Trust of which is committed to the Care and Integrity of their following eminent and worthy Gentlemen, together with a sufficient Number of Ministers of the Gospel, residing in this and the two adjacent Governments, created, and constituted Governors and Trustees of said Queen's College.

THURSDAY APRIL 16, 1767.

L O N D O N, January 14.

WE hear that the Right Hon. the Earl of Chatham will use his utmost endeavours to obtain pardon for all the rioters who are now under sentence of death in the different gaols in this kingdom, upon condition of their being transported to Florida; but this act of clemency is not to extend to any that were guilty of thefts and robberies.

Account of the annual harth-cake, at a pot-house in Wigan, in Lancashire, held the 22d, 23d, and 24th days of November last, when the following bills of fare were provided; and proved greatly insufficient. The Person committed to Warwick Gaol on Suspicion of murdering his Apprentice, was one Michael Hallom, a Ribbon Weaver of Bedworth. The Boy's Name was William Muddeman, about 14 Years of Age, and was put out Apprentice by the Parish Officers of Warwick. It appeared, on his Examination, that his Master made a common Practice of beating him in a most barbarous Manner, and refusing him the common Necessaries of Life, so much as a Draught of Water, but forced him to drink out of a nasty Ditch that ran by the Door; and that when he went to Bed he used to tie his Hands behind him, and lay him on a Pad of Straw, in order to prevent his getting to the Victuals. The Coroner's Inquest discovered several Marks of Violence on his Body, and on his being opened there was scarce any Sustainance found in him.

Feb. 3. 'We hear a Fleet is certainly to be fitted out here in the spring; but whether for Spithead, or what Destination, we are in the Dark.

'Our Artificers in the Dock-yard are very busy in the Repairs necessary to the Fleet, and a most brilliant Fleet it is,

'At Spithead, two Ships of War.'

All the Portuguese India Ships are for the future, in their Passage outward and homeward, to stop at Antigua, instead of the Bay of All-Saints.

We hear from Bristol, that a Dutch Captain was arrived there, who had a commission from General Paoli to purchase some stout Vessels, formerly Privateers, to be laden with various Kinds of Stores for Corsica.

Last Week a Waterman went on board a Ship below Gravesend, and agreed with a Passenger to take into his Boat a Quantity of uncustomed Goods, and to land them safe on Shore. Thursday Night last the Privy Council sat very late, at the breaking up of which, an Express was immediately dispatched to Gibraltar, as it is said, with Orders to fix a Boom and Chain across the Entrance of that Harbour, in order to secure it from any sudden Attempt of the Spaniards, who are suspected of having a Design upon that Place.

We hear that the Absence and severe Indisposition of a Patriot Nobleman has not prevented him from studying many Things for the Good of his Country, to whose Interest he is ever attentive, particularly, that in order to lessen the national Debt, he has formed a Plan which will ease the People and at the same Time encrease the Revenue; the Substance of which is said to be as follows:

First, That a Commission is to be established by legislative Authority, with Power to enquire by Oath into the Abuses of collecting and managing every Branch of the Public Revenue, as well as the Civil List. To examine into the supernumerary and useless Offices, as well as exorbitant Salaries and extorted Fees: To look into the Bills of the lower Officers of the Household, of the Builders, Stationers, Gardeners, with all the ravenous Crew; to search into the Pensions and the Pretences for granting them, and in short, into every Part of the Expence of the Civil List, except his Majesty's privy Purse, and lay this Enquiry before the Parliament in the succeeding Sessions, with the Heads under which they conceive a Regulation of the Expence may be made.

Secondly, That it shall be made High Treason for any Person to pay, or any Member of Parliament to receive, in Trust or otherwise, any Pension, Sum of Money, or other Gratuity from the Crown, unless it be entered in the public Office, with the Reasons for granting it; to which Office every one may have Admittance; and that an Enquiry is to be made into all present Pensions, and such as cannot stand that Test to be returned.—These are Things truly worthy of such a Patriot, and will prove that the Principles of the Peer are the same with those of the Great Commoner. L. E. P.

We are informed from Corsica, that General Paoli, with the Consent of an Assembly extraordinary, which he has lately convened, is making an Augmentation of 3000 Men in his Troops.

It is said, that the Quantities of Gunpowder and Lead Shot, that shall for the future, be exported, at any one Time, except for his Majesty's Service, will soon be limited to a certain Weight.

Monday last a Lady in one of the Western Counties, ran off with a young Tanner, of the same Place, to Scotland, in order to settle a small Matter of Business with him in that Kingdom, which the Opposition of the young Tradesman's Friends, rendered absolutely unnegotiable here. The youthful Adventurer is a Quaker, but as what he has done, has doubtless been upon proper Impulses of the Spirit, the happiest Effects are hoped from a Consummation.

Feb. 19. By Letters from the Lower Elbe there is Advice, that an incredible Number of Horses have been bought up in Holstein for the Service of the King of Prussia, and that the Levies for his Troops are also carrying on with great Ardour.

A few Evenings since a Lady of the first Rank and Quality in the Kingdom going to the Play, her two Dressing Maids made her wait above a Quarter of an Hour beyond the usual Time, which she took not the least Notice of, but next Day presented them with a Watch, as a Hint to keep Time better for the future.

It is said that the troops in North-America will be drawn from the different Parts of the country, and quartered in the neighbourhood of Bolton and N. York.

The contradiction of the ships now fitting being destined on some expedition is, we are told, a mere contradiction; for that a fleet is to be commanded by three Admirals, (Pococke, Geary and Palliser, are said to be the gentlemen) and will attend Mr. Littleton to the Tagus, whatever may be its after Destination.

Extract of a Letter from Constantinople, Jan. 3.

"Some Christian seamen belonging to a Turkish merchant-man, having killed the Captain, and taken refuge at Malta with the ship; his highness has just told the French Ambassador, that he shall depend on his influence with the Grand Master to have those villains delivered up to justice."

The report of an insurrection at New-York, is either the misrepresentation of malice, or the idle furnish of ignorance, there not being in all the British dominions, a body of subjects more strongly attached to the English Government than the loyal, yet spirited inhabitants of that settlement.

Letters from Stockholm advise, that the French Ministry have lately promised the Court of Sweden, to pay off all arrears due to that Crown, on account of the subsidies, provided that instead of land forces, Sweden shall keep in readiness for the service of France, a certain number of ships of war, properly fitted for sea, the whole to be at the expence of his Christian Majesty.

Feb. 23. Friday some Dispatches of Importance were received by his Excellency General Irwin, Governor of Gibraltar.

Feb. 24. The 15th of last Month a regiment of Spanish troops from Andalusia, arrived at St. Roque, near Gibraltar, to relieve part of the garrison; as did also 100 galley slaves from St. Sebastian's, to be employed on the fortifications. It is added, that a perfect good understanding subsists between the English and Spaniards.

They write from Gibraltar, that the new Battery on the Red Sands was finished, on which were mounted twenty four Pieces of heavy Cannon, intirely commanding the whole Bay.

Yesterday Morning his Excellency Count de Malzahn, the Prussian Ambassador, had a Conference with the Right Hon. the Earl of Shelburne, on the Subject of Dispatches received from his Court.

We hear that this Morning the Right Hon. the Earl of Strathmore will be married to Miss Bowes of Durham, the greatest Heiress in Europe; her present Fortune is one Million, and 40,000l. besides a large Jointure on the Death of her Mother, and a large Estate on the Demise of an Uncle.

YORK, Dec. 23. Yesterday a dozen of ripe strawberries were pulled in a gentleman's garden without Micklegate-bar, and there are flowers on a great many of the plants. In a garden in Mickle-gate there are now growing several artichokes, some of them near as large as a man's fist, with which the owner proposes to treat his friends the approaching holidays. In several gardens about this city there are young gooseberries. And last week fine mushrooms were gathered on Heworth Moore, near this city.

C O R K, February 9.

Yesterday se'nnight a Gentleman renounced the Errors of the Church of Rome, and embraced the Protestant Religion, in the Parish Church of Killnacraft, near Cloughnakilly, in the Diocese of Ross. And Wednesday last Mr. James Barry, Clerk to Mess. Grub and Harvey, of Youghall, Merchants, after a very diligent Enquiry into the Tenets and Purity of the Protestant Religion, in which he was fully informed by the Rev. Pratt, D.D. renounced the Errors of the same Church, in the Parish Church of St. Mary, Youghall.

TO BE SOLD,

A Plantation very well improved, containing 312 acres of good land, deem'd to be some of the best in the parts, well watered, timbered and fenced; lying at a place called Squancom, in the township of Shrewsbury, and the county of Monmouth, New-Jersey; the up lands afford good pasturage, as well as grain of all sorts peculiar to the climate; the meadows abound with grass of all the kinds for fodder, and in season may be cut thereon enough to winter one hundred head of cattle, whilst more may be improved to the same advantage; (to this may be added the benefit of thousands of acres of land, and meadows for summer range, which it is likely will not be improved in one century.) On it is a saw mill with two saws, seated on one of the best and most plentiful streams in the province, which never fails in the greatest drought, to which may be easily added, a grist or fulling mill or both, as there is plenty of water, in a growing part of the country, which increases its inhabitants; lands daily rising in value, and huntsman's toil paid with the best of venison, wild turkies and other game. It is conveniently seated for a shop-keeper, as there is none within 10 miles to supply a thick settled and growing part of the country. On the same is two tenements, besides a mill house for the sawyer, a good large barn, a bearing young orchard yielding 50 barrels of cyder, from the best of grafted fruit, with a variety of other fruit trees. For further particulars enquire of Doctor Richard Stillwell in Middletown, or the Subscriber, living on the premises, by whom a good and indisputable title will be given or made to any purchaser.
